

## **Session 1 - Incorporation of the Arts in Medical Education**

Integrating the Arts into Medical Education: One Example from Dissection to Palliative Care

**Presenter:** Sandra Bertman, PhD, Professor of Thanatology and Arts, Mount Ida College, National Center for Death Education

Engaging in the arts as initiator or observer is in itself a creative act, often catalyst enough to assist in the search for meaning, to trigger reflection and foster empathy and renewal. This presentation demonstrates how the arts challenge, instruct and literally buttress us in our endeavor to stay present with another's suffering and to better understand our own.
